25X1 [redacted] Comment. A central supply depot of the KVP is located in Bad Schandau.

25X1 [redacted] Comment. Possibly troop shipments.

25X1 [redacted] Comment. Probably uranium ore shipments.

25X1 [redacted] Comment. The concrete slabs are used for the coating of shrapnel-proof aircraft revetments.

25X1 [redacted] Comment. A comparison of the date obtained for the different months is difficult because they vary in the degree of completeness. The information on some of the railroad stations for January through April indicates that, after deduction of actual and possible troop shipments as well as construction material and coal shipments, Soviet supply traffic remained at the same level as observed in the last months of 1952.

25X1 [redacted] Comment. All the shipments between Chemnitz and various places in the uranium ore mining district may be connected with the movement of units of the 6th Gds AAA Div (US). However, because the data given are too vague this cannot be proved.

25X1 [redacted] Comment. These five shipments carried units of the 8th Gds Mtsz Div from Leisnig and units of the 9th Tank Div from Riesa to the Koenigsbrueck troop training grounds for combat practice firing. The shipment on 25 March from Leisnig was reported previously.

25X1 [redacted] Comment. Most probably the shipments from Glauchau carried elements of the 220th Hv Tank SP Regt. The shipments to Ohrdruf on 1 February, to Zeitz on 8 February and to Zeulenroda on 3 March had already been reported previously. The shipments to Flauen on 1 February, to Ohrdruf on 18 February and to Crawinkel and Haldensleben on 23 March were reported for the first time.

25X1 [redacted] Comment. The shipment [redacted] was reported previously. It probably carried a unit of the 39th Gds Mtsz Rifle Div.

25X1 [redacted] Comment. The shipments from Riesa and Roederau carried units returning to their permanent posts from march exercises of the reinforced 8th Gds Mecz Div in the Riesa area on and about 20 February. The shipments included elements of the 65th Mort Brig (US) of the 6th Arty Div which returned to Rathenow. The shipments to Borna, Wurzen, Taucha, Rueckmarsdorf, Leisnig, and Grimma, military posts of the 8th Gds Mecz Div, had been indicated in individual reports from the posts. Complete date on them were, however, received for the first time. The four shipments from Riesa to Chemnitz were reported for the first time. They indicate that units of the 6th Gds AAA Div (US) also participated in the exercise

25X1 [redacted] Comment. It is believed that these shipments moved light units of the 6th Gds AAA Div (US) to the Koenigsbrueck troop training grounds for combat practice firing. The shipment on 18 March had been previously observed in Chemnitz.
